Matson has confirmed that the booking number for the 20,000 cartons is not a valid number. They have the China Team calling me on the other number.

Kory,

Thanks for circling back on this. I have confirmed on our end that we have only received a BOL and CTS report and are thus waiting on the balance of the documents i.e. title, location for inspection etc.. Please facilitate getting this resolved and coordinate with both myself and/or Paul.

Thanks,

J3

Remington has stated that all documents were sent this past Sunday A2A. I have added him to the thread. I will be working on all of this today. Please confirm I have full consent to clean up this situation.

Kory,

Bill asked that I resend the BOL's to you that I sent last week. This is all that we're received from Remington's lawyers. Nothing else.

Sent from my iPhone

Subject: FW: BluHorne / Epluno documents

Kory,

Here's both BOL's and detailed reports.

As this is the first time for us bringing product into Long Beach Port with Remington, we need to understand the details of when it lands, when it clears customs, the product

needs to be titled to us so we can properly resell it, when can we inspect, we may need logistics to quickly move it (although most of our customers should be picking up), etc.

Thanks.

Paul Scap.
